Here are some notes about our ranch.

1. Our ranch of approximately 2000 hectares is fully fenced in (2.4m high), game proof.
2. Our ranch is divided into 2 areas of which the biggest part of 1200 hectares is beautiful mountainous Baobab/Mopane veld, a real challenge for any hunter. The rest consists of huge camps, each with its own water supply, allowing the game to roam freely, but to assist in controlling a small herd of cattle which we keep helping control the tick contamination of game.
3. Our ranch is approved by Nature Conservation as a hunting ranch and issued with an exemption permit, allowing us to hunt throughout the year without applying for permits.
4. We are also approved by Nature Conservation as a hunting outfitter, meaning that our facilities are good enough and up to standard.
5. We are also approved by the South African Police Services to conduct "business in hunting", meaning it is possible provide our guests with firearms.

Please visit the Professional Hunters' Association of South Africa web site for detailed info regarding responsibilities & laws.

***Visa requirements:**

May vary from country of origin of the hunter or tourist. No Visa required for hunters from the US.

***Hunting licenses required:**

Legislation is that no foreign hunter may hunt in South Africa, unless he/she is contracted by a registered outfitter (Safari operator) and guided by a professional hunter. I am your professional hunter & outfitter. My duty is to ensure that you, my client, do not have to worry about hunting licenses, hunting permits, permits for dispatch of trophies, all paperwork and other administrative requirements.

All Hunting-related payments (except taxidermy) are normally made to the outfitter and not any administrative or legal authority.

***Firearms Licences required:**

*None. However, the visiting hunter must have proof of ownership of the firearm in his country. So far, a valid export permit from his/her country of origin is accepted, and if

licences have been issued in his/her country of origin it is best to bring them along. Upon arrival, he/she will be issued a temporary import permit at no charge, valid for 90 to 180 days by the Customs & Excise officer at port of entry. Firearms must accompany the hunter upon departure.

*Firearms that will not be permitted into SA:

*All automatic rifles and semi-automatic rifles Please check with us if you are not sure.

* No more than one firearm per calibre and 200 rounds per firearm will be permitted.

No ammunition for other rifle calibres will be permitted.

* An exception to this may apply for shotguns where more than one of the same calibre may be allowed for bird hunting purposes if the client produces on arrival at the SAPS Gun Office an acceptable written motivation as to why more than one is required.

* Firearms must bear the manufacturer's serial number or any other mark by which the firearm can be identified. The identification number must be stamped, and the mark affixed in the prescribed manner on the barrel or the frame or the receiver of the firearm.
